Dated: 14th March, 2022

ENVIRONMENT POLICY

Alliance Air Aviation Limited, as a part of its corporate social responsibilities, is committed to address all environment issues with particular regard to preserving and protecting the environment. Alliance Air, through its "Environment Management System", will abide by all applicable laws and regulations and continually improve environment management practices and exceed the requirements by periodically reviewing our policy and improving our environmental related performance.

Alliance Air is committed to implement Green Initiative measures through effective implementation of programmes that:

- Reduce carbon emission, reduce noise and other pollution, reduce fuel consumption and reduce consumption of natural resources.
- Provide sufficient resources to meet environmental objectives by continual measuring, monitoring, reporting and improving upon environmental performance.
- Set performance targets where in objectives are achieved through training and the implementation of work instructions and practices.

Alliance Air's goal is to be an organization whose practices make it one of the most environmentally sensitive company in the aviation industry through an approach that safeguards and enhances the quality of life of its employees, customers and protects the environment.
